## **SFA Achieves Major Charitable Giving Milestone: The Combined Federal Campaign**

The Combined Federal Campaign (CFC), the world's largest workplace fundraising drive, has recently approved the SFA's application to participate in this prestigious charitable giving effort.

For more than four decades, the U.S. government has sponsored the Combined Federal Campaign.

Each fall, federal employees - civilian, military and postal - are invited to support eligible national and local charities. More than 1.3 million employees pledge over a quarter billion dollars each year. Employees choose the groups they wish to support from a list of charities that have submitted applications and been deemed qualified by the CFC.

Hundreds of thousands of federal workers will have the opportunity to learn more about the SFA when the next campaign commences in September 2011. Information about the SFA will be included in the campaign guide which is distributed to all federal employees.

For any of you SFA supporters who also are federal workers, please try to remember us when you make your annual pledge through the Combined Federal Campaign. All of us here at the SFA sincerely appreciate your generosity, as it makes a great difference in the lives of so many people living with Sarcoma.
