*Finding the Cure  
in our Time*

The Sarcoma Foundation of America (SFA) advocates for sarcoma patients by funding research and by increasing awareness about the disease. The organization raises money to privately fund grants for sarcoma researchers and conducts education and advocacy efforts on behalf of sarcoma patients.

SFA has earned its reputation as the leader in the sarcoma community by leading the way in

- funding transformational research
- leveraging resources to grow awareness about sarcoma
- bringing the community together through events
- fighting for public policies and regulatory reforms that benefit sarcoma patients and
- lifting the voices of sarcoma advocates by empowering them with information to take an active role in their care and in sarcoma research.

# THE CURE FOR SARCOMA DEPENDS ON US!

## SFA INVESTS IN INNOVATIVE RESEARCH

*SFA continues to be a leader in funding research focused on discovering and developing new and effective therapies to treat and end sarcoma.*

The single resolve of the Sarcoma Foundation of America is to find a cure for sarcoma. Although SFA advocates for sarcoma research and the development of new treatments, we know that funding translational research grants is the foundation for finding new and better treatments and ultimately an end to sarcoma. SFA makes it a priority to fill the gap in research funding and support research necessary to save lives. Since its inception in 2000, the Sarcoma Foundation of America has invested over \$10 million in research. **Of the many accomplishments SFA enjoys, being the largest funder of research in the sarcoma community is one of the most important.**

## ADVOCATE ENGAGEMENT AND EDUCATION

*The Sarcoma Foundation of America works to lift the voices of patients, family members, caregivers and other concerned individuals.*

SFA's advocate engagement and education initiatives include thought-provoking in-person education sessions with esteemed speakers, interactive webinars, and advocate/researcher networking and connections. SFA also provides briefings on the latest developments in sarcoma research, treatments, and public policy issues.

SFA's education opportunities are designed to further strengthen advocate's science knowledge and research involvement and their ability to advocate for important public policy issues. Ultimately, SFA's education program is a comprehensive program to provide the information and tools needed to be an effective advocate in the sarcoma community.

## RACE TO CURE SARCOMA

*SFA brings together the sarcoma community throughout the nation to increase awareness about sarcoma and create lasting, supportive connections.*

The **Race to Cure Sarcoma** is the premier run/walk series in the United States focused on raising awareness and research funds for sarcoma. Sarcoma patients, survivors, their friends and loved ones come together as a community to support innovative research for better treatments and an end to sarcoma. Partnering with local treatment and research facilities in cities across the United States, SFA raises money to fund research on both the local and national levels. The **Race to Cure Sarcoma** also creates awareness for the disease and helps to promote a sense of community amongst those whose lives have been impacted by sarcoma.

## STAND UP TO SARCOMA GALA

*SFA honors those who are taking a stand against sarcoma and working to progress the research and resources for those in the sarcoma community.*

Stand Up to Sarcoma, a signature annual fundraising event, highlights the important work of SFA. Each year, SFA recognizes individuals or companies that have been key to advancing progress in sarcoma and those who have dedicated themselves to making a difference for sarcoma patients and their families. We also acknowledge sarcoma patient advocates for their strength and perseverance and their commitment to advocating for an end to sarcoma. The Stand Up to Sarcoma event builds upon SFA's mission by establishing connections among sarcoma patients and survivors, their families, and the medical community. The money raised through this important event supports SFA's work to fund research and provide resources for the sarcoma community.

SFA's advocate education and engagement programs and investments in research are essential components of our work to lift the voices of sarcoma patients, family members, caregivers and other concerned individuals. Through SFA's education and training programs, advocates gain the knowledge and skills to improve their own health outcomes and participate in decision making to change research and policy toward eliminating sarcoma. That's why it is so critically important that SFA continues to lead the sarcoma community and build on our exceptional progress.
