Sarcoma Foundation of America Accepting 2024 Research Grant Proposals

DAMASCUS, Md. – November 8th, 2023 – The Sarcoma Foundation of America (SFA), an organization dedicated to increasing research and awareness for sarcoma, is now accepting proposals for pre-clinical, translational, and clinical research on the etiology, molecular biology, pathogenesis, diagnosis, and treatment of human sarcomas. The submission deadline is 11:59 p.m. ET on February 1, 2024.

The SFA grants are awarded on an annual cycle from June 1 to May 31. For each awarded grant, funding of up to \$50,000 in total cost is available to cover equipment, supplies, and other expenses supporting research within the performance period.

This request for proposals is in support of SFA's overall mission to fund research and increase awareness and advocacy for sarcoma patients and their families. The SFA Grant Program aims to encourage research that results in improved therapeutic options for sarcoma patients. The SFA encourages applications in all areas of sarcoma research.

About the Sarcoma Foundation of America

The Sarcoma Foundation of America (SFA), a 501(c)(3) nonprofit charitable organization, is an advocate for increased research to find new and better therapies with which to treat patients with sarcoma. The organization raises money to privately fund grants for sarcoma researchers and conducts education and advocacy efforts on behalf of sarcoma patients. For more information, please visit www.curesarcoma.org.

About Sarcoma

Sarcoma is a rare cancer in adults (1 percent of all adult cancers) but rather prevalent in children (about 15% of all childhood cancers). At any one time, 200,000 patients and their families are struggling with sarcoma. Every year, nearly 17,370 new cases are diagnosed and more than 7,280 people die from the disease.
